

BARWON HEALTH ACUTE REFERRAL SERVICE

Local Acute Care
Closer to Home

Does your patient have an illness or injury requiring acute care?

Barwon Health's Acute Referral Service is available via telehealth 12pm – 9pm, 7 days a week.

Specialists at University Hospital Geelong can provide video-based care and potentially avoid the need to visit the Emergency Department. The service can also assist in streamlining safe inter-hospital transfers for patients in need of inpatient care.
